## ABOUT LASAR

LASAR describes the requirements that all students must fulfill to earn a bachelor's degree from the College of Letters and Science at the University of California, Santa Barbara. It also includes important information about enrollment, registration, and student responsibilities. It does not include detailed information about major or minor requirements, nor does it provide a comprehensive description of the many opportunities that are available at UCSB. Please refer to the *UCSB General Catalog* for complete information about academic departments, courses, majors, and minors. Visit our website, [www.duels.ucsb.edu](http://www.duels.ucsb.edu), for more complete details about:

- Opportunities for Undergraduate Research
- Transfer Issues
- The College Honors Program
- Grades
- Sources of Assistance
- Freshman Seminars

## DEGREE REQUIREMENTS

To be eligible for a bachelor's degree from UCSB, students in the College of Letters and Science must meet the general University of California requirements and the appropriate college requirements as described below. They must also complete major requirements as described in the *UCSB General Catalog*. Further, they must also comply with university regulations governing registration, scholarship, examinations, and student conduct. Following is a summary of bachelor's degree requirements for students in the College of Letters and Science.

### UNIT REQUIREMENTS

- Course Numbering
- Upper-Division Courses
- Credit Limitations
- 200-Unit Enrollment Limit

### GENERAL UNIVERSITY REQUIREMENTS

- Entry Level Writing
- American History and Institutions
- Academic Residence
- Grade-Point Average

### GENERAL EDUCATION REQUIREMENTS

Students must complete the requirements appropriate to their chosen degree—Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music or Bachelor of Science. For inquiries regarding specific General Education Requirements, please contact the Academic Advising information line at (805) 893-2038.

### MAJOR REQUIREMENTS

Full details are described in the *UCSB General Catalog*. You can also visit [www.registrar.ucsb.edu](http://www.registrar.ucsb.edu) to view major requirement sheets.

## UNIT REQUIREMENTS

Credit for academic work at UCSB is expressed in units. The value assigned to a course is determined at the rate of one unit for each three hours of student work per week, including time in class. In order to be eligible for graduation, students must complete at least the following:

- 180 total units (184 if General Education Area B is fulfilled by completing foreign language level 3 at UCSB or its equivalent at another college or university).
- Of the total units, 60 must be upper-division.

There is no limit on the number of courses that may be taken passed/not passed during a single quarter. At the time of graduation, however, students must have earned at least 120, or two-thirds, of their units in residence at UCSB on a letter-grade basis. Students who complete more than 180 units at UCSB must complete at least 120 units on a letter-grade basis. (See page 25 for details about the grading system at UCSB.)

## Course Numbering

Courses at UCSB are identified by their course number as lower-division, upper-division, graduate, or professional, as follows:

<b>Classification:</b>	<b>Course Numbers:</b>
Lower-division	1-99
Upper-division	100-199
Graduate	200-299; 500-599
Professional*	300-499

\*Professional courses do not apply to the bachelor's degree

## Upper-Division Courses

Sixty upper-division units are required. UCSB courses are considered upper-division if they are numbered 100-199. Graduate courses numbered 200-299 and 500-599 will apply to the upper-division unit requirements.

Transfer students from community colleges should take particular note of the upper-division unit requirement, because community colleges do not offer upper-division courses.

## Credit Limitations

The university accepts a maximum of 105 quarter units or 70 semester units of lower division credit for college courses completed at two-year colleges or non-UC institutions. Only subject credit for specific lower-division requirements is assigned subsequently. In addition, graduation credit cannot be assigned for:

- Exercise and Sport Studies 1- courses, or their equivalents, in excess of six units.
- Repetition of courses for which credit has already been earned, unless their official descriptions in the *General Catalog* permit repetition for credit.
- Courses that duplicate material covered in similar courses already completed (such as Psychology 5 and any course from PSTAT 5AA-ZZ).

- Lower-division language courses for students who have completed ninth grade or higher in a school that uses that language for instruction.
- Foreign language courses at the same level or lower level than any such courses already completed.
- 98/99 and 198/199/199AA-ZZ independent studies courses in excess of the 30-unit cumulative limit placed upon these classes.
- University Extension courses numbered other than 1-299.
- Courses graded F, NP, I, IP, or W at the time of graduation.
- Courses not transferable to the University of California.
- Courses from unaccredited schools.
- UC courses numbered 300-499.

## 200-Unit Enrollment Limit

The college expects students to graduate with no more than 200 units. College policy requires students to secure specific approval to continue enrollment beyond 200 units. College credit earned before high school graduation does not count toward the 200-unit maximum. This includes credit for Advanced Placement, Cambridge A Level examinations, International Baccalaureate examinations, and also college or university credit earned while still in high school. In addition, students who are admitted as freshmen and remain continuously enrolled will be allowed 12 regular quarters at UCSB, and students admitted as juniors who remain continuously enrolled will be allowed 6 regular quarters, even if they earn more than 200 units during that period. Students are also free to attend summer session. Summer session does not count as a regular quarter in this calculation, but units earned in summer session apply toward the 200-unit maximum.

**Note:** If students discontinue enrollment at UCSB and earn a large number of units at one or more other academic institutions while they are away, the number of quarters allowed at UCSB will be reduced in proportion to the number of terms completed elsewhere. Students who think they may exceed both the quarter limitations noted and 200 units may submit a Proposed Schedule for Graduation for consideration by the dean of undergraduate education, but they should understand that approval is granted only in very limited circumstances.

## General University Requirements

### Entry Level Writing Requirement

Every undergraduate must demonstrate an acceptable level of ability in English composition.

The Entry Level Writing requirement may be met in one of seven ways prior to admission: (1) a score of 680 or higher on the Writing section of the SAT Reasoning Test; (2) a score of 30 on the ACT Combined English/Writing test; (3) a score of 3 or higher on the College Board Advanced Placement Examination in English Composition and Literature or English Language and Composition; (4) a score of 5, 6, or 7 on the higher level English A Literature or English A Language and Literature International Baccalaureate Exams; (5) a score of 6 or 7 on the standard level English A Literature or English A Language and Literature International Baccalaureate Exams; (6) passing the University of California system wide Analytical Writing Placement Examination while in high school; (7) entering the university with transcripts showing the completion of an acceptable three-semester-unit or four-quarter-unit course in English composition equivalent to Writing 2 at UCSB with a grade of C or higher. Students who have not taken the UC system wide examination and who have not satisfied the Entry Level Writing requirement in one of the other ways listed above will be required to take the UCSB examination during their first quarter at UCSB; see the Schedule of Classes for examination time and location. A fee will be charged for this examination. A passing score on the examination will satisfy the Entry Level Writing requirement. Only one UC examination may be taken, either the system wide examination while in high school or the UCSB examination, and neither may be repeated.

Students who enter UCSB without having fulfilled the university's Entry Level Writing requirement and who do not pass the UCSB examination must enroll in Writing 1 or 1E or 1LK within their first year at UCSB. A grade of C or higher in Writing 1 or 1E or 1LK is needed to satisfy the Entry Level Writing requirement. Students who earn a grade of C- or lower will be required to repeat the course in successive quarters until the requirement is satisfied. Students who are required to complete English as a Second Language courses may satisfy the Entry Level Writing Requirement with a grade of C or higher in Linguistics 12.

Once students matriculate at UCSB, they may not fulfill the requirement by enrolling at another institution. Transfer courses equivalent to Writing 2, 2LK, 50, or 50LK will not be accepted for unit or subject credit unless the Entry Level Writing requirement has previously been satisfied.

New, nonimmigrant, international students must take a special English Language Placement Examination (ELPE) when they arrive on campus, unless they have been exempted from this requirement. Students who pass the ELPE must satisfy the Entry Level Writing requirement in one of the ways described above. Students who do not pass the ELPE must enroll in one or more courses in the Department of Linguistics that are specifically designed to increase oral and/or written proficiency in the English language. Performance in these courses will then determine a student's Entry Level Writing status.

The Entry Level Writing requirement must be satisfied by the end of the third quarter of matriculation. Students who do not meet this deadline will be blocked from further enrollment at UCSB. (ESL students should consult the Writing Program.)

### American History and Institutions Requirement

The American History and Institutions requirement is based on the principle that students enrolled at an American university should know about the history and government of this country. The requirement may be satisfied by completion of any four-unit course chosen from the following list. In this context, "course" refers to a one-quarter offering such as History 17A or Religious Studies 114B.

- Anthropology 131, 176B
- Art History 121A-B-C, 136H
- Asian American Studies 1, 2
- Black Studies 1, 1H, 6H, 103, 137E, 169AR-BR-CR
- Chicano Studies 1A-B-C, 144, 168A-B, 174, 188C
- Comparative Literature 133
- English 133AA-ZZ, 134AA-ZZ, 137A-B, 191
- Environmental Studies 173
- Feminist Studies 155A, 159B-C
- History 11A, 17A-B-C, 17AH-BH-CH, 105A, 159B-C, 160A-B, 161A-B, 164C, 164IA, 164IB, 165, 166A-B-C, 166LB, 168A-B, 169AR-BR-CR, 169M, 172A-B, 173T, 175A-B, 176A-B, 177, 178A-B, 179A-B
- Military Science 27
- Political Science 12, 115, 127, 151, 152, 153, 155, 157, 158, 162, 165, 167, 180, 185
- Religious Studies 7, 14, 151A-B, 152
- Sociology 137E, 140, 144, 155A, 157
- Theater 180A-B

Courses used to fulfill the American History and Institutions requirement may also be applied to General Education and/or major requirements where appropriate. Equivalent courses taken at other accredited colleges or universities or in UC Extension are acceptable as determined by the Office of Admissions.

The American History and Institutions requirement may be satisfied in four additional ways: (1) a score of 650 or higher in the SAT Subject Test in U.S. History; (2) a score of 3 or higher on the College Board Advanced Placement Examination in American History; (3) a score of 3 or higher on the College Board Advanced Placement Examination in American Government and Politics; or (4) passing a noncredit examination in American history or American institutions offered in the Department of History during the first week of each quarter (consult the department for further information). Students who transfer to UCSB from another campus of the University of California where the American History and Institutions requirement was considered satisfied will automatically fulfill the requirement at UCSB. International students on a nonimmigrant visa may petition for a waiver of this requirement through the director of International Students and Scholars.

## Academic Residence Requirement

Candidates for a bachelor's degree must be registered in the university for at least three terms to fulfill the university's academic residence requirement. A term is a regular quarter or summer session in which a student completes six or more units as a registered UCSB student. Each UC summer session in which a student completes at least two units but fewer than six units is the equivalent of half of a term's residence. (In this context, summer session refers to the entire summer, not to each mini-session.)

At least 35 of the final 45 units must be taken in the college or school in which the degree is to be awarded.

Students in the College of Letters and Science must also complete at least 27 upper-division units, of which at least 20 must be in the upper-division major, while in residence in the college. In the case of double majors, at least 20 upper-division units must be completed in each major while in residence in the College of Letters and Science. Courses taken in the University's Education Abroad Program or through UC Extension cannot be used to satisfy residence requirements.

Students who wish to receive recognition for completing an academic minor must complete at least 12 of the upper-division units for the minor in residence at UCSB. Students who are pursuing a minor or double major should note that units applied to residence in one major will not apply to residence in the minor or other major.

Coursework completed elsewhere does not apply to academic residence. This includes courses taken at another UC campus while simultaneously enrolled at UCSB. In addition, UCSB coursework completed through Intersegmental Cross Enrollment does not apply to academic residence.

## Education Abroad, UCDC, or UC Center in Sacramento Program Participants

With one modification, students who participate in the University of California Education Abroad program, UCDC program, or UC Center in Sacramento program are responsible for all academic residence requirements as explained above. For students who participate in EAP, UCDC, or the UC Center in Sacramento program as seniors, the rule requiring 35 of the final 45 units in the college or school in which the degree is to be awarded is modified to 35 of the final 90 units. Students must secure prior approval to use this modification and may graduate without returning to UCSB provided that they have satisfied all degree requirements by the end of their year abroad. Those who have any remaining degree requirements must return to UCSB to complete a minimum of 12 units on campus while fulfilling final degree requirements.

## Grade-Point Average Requirement

At the time of graduation, students in the College of Letters and Science must have at least a 2.0 (C) grade-point average in (1) all courses undertaken in the University of California except those graded passed/not passed; (2) all UC courses required and acceptable for the student's overall major program, both lower- and upper-division; and (3) all UC courses required and acceptable for the student's upper-

division major program.

Courses undertaken at any of the UC campuses in regular session or summer session, except for those that appear exclusively on a UC Extension transcript, are included in these grade-point average computations. Effective with courses completed in fall 2000 and later, UCSB courses completed by concurrent enrollment through Extension will be added to students' UCSB transcripts and integrated into the UC grade-point average if degree credit is approved.

All courses appropriate for satisfaction of major requirements must be utilized in the computation of the grade-point average even if they are in excess of the minimum requirements of the major program. Courses graded Incomplete, except those taken on a passed/not passed basis, will be included as F grades in final computations. See page 26 for details about grades available at UCSB.

## General Education Requirements

The General Education Program is the common intellectual experience of all UCSB students, whatever their majors. Through the General Education Program, students receive an orientation to a broad range of intellectual disciplines: the kinds of questions that are addressed, the methods for solving problems, and the strategies for communicating findings and conclusions.

The General Education Program is multidisciplinary. It requires study of the humanities and the fine arts, the natural and social sciences, and the cultural traditions and diversity of the modern world. It requires at least one course in a world culture and at least one course that focuses on the history and cultural, intellectual, and social experience of designated U.S. ethnic groups.

The General Education Program also provides opportunities to acquire university-level skills in writing, critical thinking, quantitative analysis, and foreign languages, in courses specifically devoted to these topics and also in courses in which practice and instruction in these topics are embedded in the study of other subjects.

Students in the College of Letters and Science must complete the General Education requirements appropriate to their degree (B.A., B.S., B.F.A., or B.M.) in order to qualify for graduation. Not all of the General Education courses listed in this publication are offered every year.

Students with questions about the General Education requirements should meet with an advisor in the College of Letters and Science Academic Advising Office in 1117 Cheadle Hall. Go to [www.duels.edu/advising](http://www.duels.edu/advising) for hours and appointment information.

## General Provisions Governing All Degree Candidates

1. Courses in the student's major can also be used to fulfill General Education requirements.
2. Courses taken to satisfy the General Education requirements may also be applied simultaneously to the American History and Institutions requirement.
3. A course listed in more than one general subject area can be applied to only one of these areas. (Example: Art History 6A cannot be applied to both E and F.)

## Bachelor of Arts Degree

### Special Subject Area Requirements

In the process of fulfilling the General Education General Subject Areas C through G, students must also complete the following special subject area requirements. A supplementary list of courses applicable to these requirements follows the description of General Subject Area Requirements A-G, below.

- 1. Writing Requirement.** At least six designated General Education courses that meet the following criteria: Study and practice with writing, reading, and critical analysis within specific disciplines. Students will demonstrate abilities by producing written work totaling at least 1800 words that is independent of or in addition to written examinations. Assessment of written work must be a significant consideration in total assessment of student performance in the course. Students may, by petition, request that up to two other UCSB courses be considered as applicable toward this requirement. Special instructions for such petitions are available from the college office. Once a student has matriculated at UCSB, the writing requirement may be met only with designated UCSB courses. Courses that meet the writing requirement are marked with an asterisk (\*) symbol in the lists below.
- 2. Quantitative Relationships Requirement.** Objective: To develop and apply basic quantitative methods to relevant questions or areas of study. At least one course from Area C emphasizing quantitative relationships. Courses applicable to this requirement are marked with a pound (#) symbol in Area C below.
- 3. World Cultures Requirement.** Objective: To learn to identify, understand, and appreciate the history, thought, and practices of one or more culture outside of the European tradition. At least one course that focuses on a world culture outside of the European tradition. Courses applicable to this requirement are marked with a plus (+) symbol in Areas D through G below.
- 4. European Traditions Requirement** (B.A. only). Objective: To learn to analyze early and/or modern European cultures and their significance in world affairs. One course required. Courses applicable to this requirement are marked with a carat (^) symbol in Areas D through G below.
- 5. Ethnicity Requirement.** Objective: To learn to identify and understand the philosophical, intellectual, historical, and/or cultural experiences of HISTORICALLY oppressed and excluded racial minorities in the United States: Native Americans, African Americans, Chicanos/Latinos, Asian Americans, Pacific Islander Americans, and Multiracial Americans or a course that provides a comparative and integrative context for understanding the experiences of oppressed and excluded racial groups in the United States. One course required. Courses applicable to this requirement are marked with an ampersand (&) symbol in Areas D through G below.

## General Subject Area Requirements

### Area A: English Reading and Composition

**Objective:** To learn to analyze purposes, audiences, and contexts for writing through study of and practice with writing.

The Area A Requirement consists of two parts: Area A1 and A2 and may be fulfilled in one of three ways:

1. by credit received from Advancement Placement Exams or International Baccalaureate Exams. Go to pages 22-23 for details. Please note that AP or IB credit may prevent you from earning units for Writing 2, 2E, or 2LK and Writing 50, 50E, 50LK.
2. by credit from appropriate courses transferred from another institution—see a College of Letters and Science advisor the Writing Program advisor for details.
3. by successfully completing two approved UCSB courses:
  - Courses that fulfill Area A1: Writing 2, 2E, 2LK
  - Courses that fulfill Area A2: English 10, 10AC, 10EM, 10LC; Writing 50, 50E, 105 AA-ZZ, 107AA-ZZ, 109AA-ZZ.

Note: Students must complete the General University Entry Level Writing requirement before enrolling in courses that fulfill the Area A requirement of the General Education Program. A description of ways to fulfill the Entry Level Writing requirement is given on page 6.

### Area B: Foreign Language

**Objective:** To display basic familiarity with a written and/or spoken foreign language appropriate to the discipline.

The foreign language requirement may be satisfied in one of the following four ways:

1. By completing Language 3 (third quarter) at UCSB or its equivalent at another college or university. Students fulfilling Area B with this method will require 184 overall units.
2. By achieving a score of 3 or higher on the College Board Advanced Placement Examination in a foreign language or by earning one of the following minimum scores on the Foreign Language SAT Subject Test: Chinese with Listening-570; French/French with Listening-590; German/German with Listening-570; Modern Hebrew-500; Italian-570; Japanese with Listening-570; Korean with Listening-550; Latin-580; Spanish/Spanish with Listening-570.
3. By completing the third year of one language in high school with a grade-point average for third-year language of at least C.
4. By passing a UCSB foreign language placement examination at the appropriate level.

### Area C: Science, Mathematics, and Technology

**Objective:** To understand methods and applications of science and mathematics, apply them to problems, and describe solutions using language appropriate to the discipline. Courses should be in a single discipline and should be sufficiently broad to provide a base of knowledge about the discipline. Courses may be designated for majors or non-majors.

COURSE #	LONG TITLE	COURSE #	LONG TITLE
Three courses are required. The list of disciplinary subsections which follow are for students' information only; courses may be selected from any one subsection or a combination of subsections.			
<b>The Biological Sciences</b>

^ course also satisfies European Traditions Requirement

#### **Bachelor of Science Degree**

Candidates for the bachelor of science degree must complete the following general subject area requirements: Area A; Area B; Area C; two courses from Area D; two courses from Area E; one course from Area F; one course from Area G.

Students are also responsible for completing all of the special subject area requirements as outlined in the B.A. requirement section, with the exception of the European Traditions requirement, which is only required for the B.A. degree.

#### **Bachelor of Fine Arts Degree;**

#### **Bachelor of Music Degree**

Candidates for the degree of bachelor of fine arts or bachelor of music must complete the following general subject area requirements: Area A; Area B; two courses from Area C; two courses from Area D; two courses from Area E; one course from Area G.

Students are also responsible for completing all of the special subject area requirements as outlined in the B.A. requirement section, with the exception of the European Traditions requirement, which is only required for the B.A. degree.

# A Level Credit

Students who earn grades of A, B, or C on UC-approved GCE and Hong Kong A Level examinations will receive 12 units of credit toward graduation at UCSB for each exam, provided that official grades are submitted to the Office of Admissions. Any general education credit or UCSB course equivalents listed in the chart below will be awarded only for Cambridge International A Level exams taken in 2013 or later, not for exams administered by any other agency. (Student may petition for GE or course credit for Cambridge International exams taken prior to 2013 or for exams administered by other agencies.)

Students should be advised that college courses taken before or after attending UC may duplicate AP, IB and/or A Level examinations. Additionally, exams may duplicate each other (for example, an AP or IB exam in the same subject area). If the student does duplicate an exam with another exam of the same subject content, and/or an exam with a college course, we will award credit only once.

*Note: A Level examination credit earned prior to entering the university will not be counted toward maximum unit limitation either for selection of a major or for graduation.*

# course also satisfies the Quantitative Relationships Requirement

## MAJOR REQUIREMENTS

In order to be eligible for graduation, all undergraduates must complete the requirements for a major in the College of Letters and Science with the required grade-point averages and academic residence requirements. To ensure timely progress toward the degree, students are required to declare their major by the time they reach 90 units.

Provided they will be able to complete the degree requirements without exceeding 200 units, students may elect any approved major program for which they have met the stated prerequisites, as space permits. Students from the College of Engineering and the College of Creative Studies will not be accepted into the College of Letters and Science after they have completed 180 units. Major departments and/or committees may require auditions, placement examinations, or specified courses to determine whether students are qualified for entrance into or continuation in a major. Admission into the individual major and the interdisciplinary studies major is subject to the approval of the Executive Committee of the College of Letters and Science. In addition, some departments require a grade-point average in excess of 2.0 for entrance into the major, as noted in the *General Catalog*. Students who fail to maintain a grade-point average of at least 2.0 in work in the major may, at the option of the major department or committee, be denied the privilege of continuing in that major.

Students in the College of Letters and Science normally complete the major requirements in effect at the time they declare their major, though they may petition to follow a subsequent set of requirements.

Changes in major requirements that increase the number or specificity of courses required will not normally be applied to already-declared students continuing in such majors. However, if students take one or more breaks in enrollments totaling nine or more quarters, they may be required to follow a newer catalog year upon their final return to UCSB. Full details are described in the *UCSB General Catalog*.

## ENROLLMENT AND GRADING

### ENROLLMENT

Each quarter, every student at UCSB must register in courses, clear any blocks on registration, and pay fees and other outstanding financial obligations. Additionally, each fall quarter, every student must confirm or update address information either through the GOLD system on the web at [my.sa.ucsb.edu/gold/login.aspx](http://my.sa.ucsb.edu/gold/login.aspx) or with a Change of Address petition. Each step must be completed by specified deadlines. The failure of an undergraduate student to complete the steps involved in enrollment by the specified deadlines will constitute presumptive evidence that the student has withdrawn from the university. A student whose status has lapsed because of failure to satisfy the conditions of admission, failure to register, failure to clear blocks, or failure to meet financial obligations, and who wishes to resume studies, must file an application for readmission/reinstatement and pay the associated nonrefundable fee. Readmis-

sion/reinstatement is subject to availability of space and is not guaranteed. Check [registrar.sa.ucsb.edu](http://registrar.sa.ucsb.edu) for applicable deadlines.

### Program Changes

After registration, changes in the student's program can be made using GOLD until the deadlines published on the Registrar website, [registrar.sa.ucsb.edu](http://registrar.sa.ucsb.edu), for each quarter. Such changes include course drops and adds and change in grading options. Unapproved withdrawal from or neglect of a course for which one has registered will result in a failing grade. Course additions after the first week of classes require the approval of the course instructor.

### Program Change Deadlines

#### Last Day to:

Drop Writing 1, 1E, 1LK, 2E, 2LK, 50, 50E, 50LK	5 <sup>th</sup> day of classes
Add classes	15 <sup>th</sup> day of classes
Drop classes ( <i>other than writing courses listed above</i> )	20 <sup>th</sup> day of classes
Change grading option	End of the 7 <sup>th</sup> week of classes

### Maximum and Minimum Programs

The average academic study load for undergraduate students is 15 units per quarter, to yield 180 units by the time of graduation. The minimum full-time study load is 12 units, but students will not graduate in four years if they enroll in the minimum number of units each quarter. Students who are not able to carry at least 12 units per quarter must petition and receive approval prior to enrolling in a deficit program. Undergraduate students who have submitted their petitions to the College of Letters and Science for a deficit program of 10 or fewer units prior to the first day of instruction may be considered for a 50 percent reduction of the educational fee and nonresident tuition, subject to approval of the Office of the Registrar. Only those students with verifiable reasons of employment, health, or family responsibility or students who have declared candidacy for graduation for the requested quarter will be eligible for the fee reduction. Deficit program approval does not constitute automatic approval of fee reduction. Students in the College of Letters and Science may petition for permanent approval of deficit programs (that is, for permanent part-time status).

Students in good academic standing may enroll in as many as 21 units each quarter. Those on academic probation may not enroll in more than 17 units each quarter of their probationary status. Students who wish to enroll in more than the maximum number of allowable units must petition for an excess program at the time of registration.

## Minimum Cumulative Progress (MCP) Program

Undergraduate students enrolled in the College of Letters and Science are subject to the Minimum Cumulative Progress requirement. Minimum Cumulative Progress (MCP) is a policy designed and approved by the faculty to provide important guideposts to ensure timely degree completion. The MCP requirement establishes a reasonable expectation of student workload.

## Summary of Program Regulations

Certain rules govern the selection of courses each term. Students are reminded that they:

- May not enroll in a course officially as a way of making up an Incomplete grade.
- May not enroll in more than five total units of 98, 99, 198, 199, 199AA-ZZ courses per quarter.
- Must be juniors or seniors to enroll in 198 or 199, 199AA-ZZ courses.
- Must choose letter grading for all courses used to satisfy requirements in the major or minor. This includes lower- and upper-division courses, both within and outside the department of the major or minor. (Some departments accept a small number of units for courses graded P where letter grades are not available. See departmental entries in the *General Catalog*.)
- May not repeat a course for which the previous grade was higher than C- unless permitted in the official course description in the *General Catalog*.
- Must obtain permission of the dean to repeat a course that they have already attempted two or more times.
- Must complete Writing 1, 1E, or 1LK by the end of the third quarter at UCSB.
- Must complete Writing 2, 2E, or 2LK by the end of the sixth quarter at UCSB.

## Student Responsibilities

Students are responsible for the following:

1. Verifying eligibility for classes. Students should consult the *General Catalog* for prerequisites.
2. Avoiding duplicating coursework for which they have already earned credit.
3. Indicating their desired grading option at the time of enrollment.
4. Observing and meeting all deadlines for fee payment, registration, and changing their enrollment (adding or dropping courses, changing grading option).
5. Indicating course repetition at the time of enrollment.
6. Indicating the intended number of units to be earned in

variable-unit courses. At the end of the term, the instructor will report to the Office of the Registrar the number actually completed and the grade earned, and the Office of Registrar will make any necessary adjustments to the student record.

7. Obtaining approval prior to registration for any of the following exceptions:
  - enrolling in a deficit program of fewer than 12 units. Required fall, winter, and spring only; for summer session there is no minimum load requirement.
  - enrolling in more than 17 units while on academic probation in fall, winter, and spring quarters.
  - enrolling in more than 21 units while in good academic standing. Required fall, winter, and spring.
  - enrolling in an excess program of more than 16 units during each summer session.
  - enrolling in UC Extension courses.
  - enrolling simultaneously at UCSB and another college or university (concurrent enrollment). Note that degree credit for such transfer work is very rarely approved.
  - repeating a course more than once.
  - exceptions to 198, 199, 199AA-ZZ course policies.

## ABSENCE, WITHDRAWAL, AND READMISSION/REINSTATEMENT

### Temporary Absence During a Quarter

Students are expected to attend classes regularly, and in most instances attendance and participation in class are factors in determining the final grade. If an absence is unavoidable due to serious illness or personal emergency, each instructor should be notified. Regardless of the reasons for absence, however, students will be required to complete all coursework.

If an absence is late in the term and prolonged, making it impossible to complete the coursework on time, students may petition their instructors to assign an Incomplete (I) grade. To receive an I grade, a student must submit the approved petition to the Office of the Registrar by the last day of the quarter in which the I is to be assigned. A \$5 fee will be assessed. A student who is unable to make this request in person may ask the Office of Student Life to notify each instructor of the circumstances of the absence and to circulate a petition on the student's behalf. If the instructor agrees that an extension of time for completion of the course is justified and approves the petition, a grade of Incomplete will be assigned. See page 28 for complete details about Incomplete grades.

## Withdrawal from a Course

To drop a course after the established deadline for each quarter, undergraduates must make a written request and obtain the approval of the dean of undergraduate education. Such requests are not readily approved, and students should continue attendance while the request is evaluated. If the request is approved, the dean will direct the Office of the Registrar to enter the grade of W for each course involved. If the request is not approved, the student will receive the grade assigned by the instructor of the course.

## Complete Withdrawal

Once fees have been paid or officially deferred, or after a financial aid agreement has been signed for a particular quarter, students then wishing to withdraw for that term without completing the enrollment process must do so by petition to the Office of the Registrar. An enrolled student who wishes to withdraw from the university during a quarter without completing the quarter's work must obtain a petition for complete withdrawal from the Office of the Registrar. If the petition requirements are met and the approval of the dean of undergraduate education is secured, and if the completed petition is submitted to the Office of the Registrar by the deadline for course withdrawal, the student's registration will be cancelled without academic penalty. If the completed petition is submitted to the Office of the Registrar after the deadline for course withdrawal, but no later than the last day of instruction for the term, the dean of undergraduate education will direct the Office of the Registrar to enter the grade of W for each course in which the student was enrolled. A student who receives permission to withdraw completely during the early weeks of a quarter may be entitled to a partial refund of fees for that quarter as outlined on the Registrar website, registrar.sa.ucsb.edu. Students who have received Title IV federal aid will be required to return a portion of that aid if they withdraw before completing 60 percent of the quarter. Upon request, the Office of Student Life will process a petition for complete withdrawal, but no later than the last day of instruction for the term, for a student who cannot do so in person. If the dean of undergraduate education approves the petition, the student's academic record will reflect the process described above.

Students who enroll and subsequently discontinue work during a quarter without an approved petition for withdrawal will receive F or NP grades, as appropriate, for all courses in which they are enrolled for that quarter. Such students are ineligible for any refund of fees, and their future registration privileges may be curtailed or revoked. Students are advised to seek counsel from faculty, departmental, or college advisors, Counseling Services, Career Services, and the Financial Aid Office, if appropriate, before withdrawing to consider the full implications of this action. After withdrawal and before future registration, undergraduates must apply for and receive permission to be readmitted.

*Note: The deadline to submit a petition for complete withdrawal is the last day of instruction for the term.*

## GRADES

### Grading System

The College of Letters and Science offers two grading options for undergraduates: letter grades A-F and passed/not passed (P/NP) grades. Any grade of D- or above is considered a passing grade in letter-graded courses. There is no stipulation (such as a mandatory grade curve) concerning how these grades should be distributed in each class; this is left to the discretion of the instructor. Instructors may modify the grades of A, B, C, and D by assigning a plus (+) or a minus (-) suffix. Minus grades carry three-tenths of a grade point less per unit, and plus grades (except A+) carry an additional three-tenths of a grade point per unit. When a student withdraws from the university or receives approval to drop a course after the established deadline for course withdrawal (20<sup>th</sup> day of instruction), the registrar will assign a W to the student for each course affected. Courses in which a W has been entered on the student's record will be disregarded in determining a student's grade-point average.

### Grade-Point Average

The university grade-point average is computed by dividing the number of units attempted on a letter-grade basis in the University of California into the number of grade points earned for these units. Grade-point averages are computed for a number of purposes, including the determination of whether students are (1) maintaining the averages required for continued registration in the university, (2) eligible to enter or continue in a given course or major, (3) eligible for graduation, and (4) eligible for honors such as membership in the College Honors Program, dean's term honors, or honors at graduation.

Graduate and professional schools, as well as employers, may compute grade-point averages differently. For example, they may include only the classes completed during the junior and senior years, or only courses completed in the major department. Pre-law students should note that the Law School Data Admission Service (LSDAS) computes grades of NP as F in the GPA.

### Grade-Point Balance

The grade-point balance is the difference between the number of grade points which a student has earned and the number needed for a 2.0 grade-point average.

The first step in computing the grade-point balance is to multiply the number of units attempted for letter grade by a factor of 2, to determine the number of grade points needed for a 2.0 grade-point average. To find their grade-point balance, students then subtract this number from the number of grade points they have actually earned. Students whose grade-point average is above 2.0 will have a positive grade-point balance. Those with a grade-point average of exactly 2.0 will have a 0 balance. Students whose grade-point average is below 2.0 will have a negative balance, called a deficit.

Computation of grade-point balance is especially helpful to students who are in academic difficulty, for it aids in determining how long it will take, and what grades are needed, to return to regular academic status. For example, to counteract a grade-point deficit of eight, a student will need to earn eight grade points above the C level. This would be accomplished by earning eight units of B or four units of A.

Visit [www.duels.ucsb.edu/advising/policies/gpa-calculator](http://www.duels.ucsb.edu/advising/policies/gpa-calculator) for practice in calculating grade-point average and balance.

#### Letter Grades

A	= Excellent
B	= Good
C	= Adequate
D	= Barely Passing
F	= Failing
I	= Incomplete
IP	= In Progress
W	= Withdrawal

### Passed/Not-Passed Grades

Passed/Not Passed (P/NP) grades are not included in the computation of university grade-point averages. Courses graded P, however, are acceptable for unit and appropriate degree credit. P grades will be assigned only for coursework equivalent to a C or better on the letter-grade basis. NP grades will be assigned for work equivalent to a C- or below. No unit or degree credit is given for courses graded NP. Undergraduate courses may be offered exclusively on a P/NP basis with the prior approval of the appropriate faculty committees. Such courses are specially identified in GOLD. Students on academic probation, as well as those in good standing, may take such courses without special approval. Students may elect the P/NP grading option in any number of courses (see GOLD to determine which courses allow the P/NP grading option) during a particular term provided that:

- They are in good academic standing (i.e., not on academic probation). However, students on probation may enroll in courses offered exclusively on a P/NP basis.

Each unit of	= Grade Points	Each unit of	= Grade Points
A+	4.0	D	1.0
A	4.0	D -	0.7
A -	3.7	F	0.0
B+	3.3	I	0.0
B	3.0	IP	0.0
B -	2.7	P	0.0
C+	2.3	NP	0.0
C	2.0	S	0.0
C -	1.7	U	0.0
D+	1.3	W	0.0

- The course is open to all qualified students on this basis and is so advertised in GOLD.

- The course is not required or accepted for the student's major or minor. Courses in the major or minor, whether lower- or upper-division, in or outside of the major department, must be taken for a letter grade. (With the prior approval of appropriate faculty committees, a department may specify that certain major or minor courses may be taken P/NP. Courses for which such approval has been granted are identified in the department entries in the *General Catalog*.)
- They elect this option at the time of registration or thereafter but not later than the end of the seventh week of classes. Students are responsible for determining whether they are qualified for enrollment in courses on a P/NP basis according to the requirements stated here.
- At the time of graduation at least two-thirds of their units earned in residence at UCSB have been earned on a letter-grade basis. (Students who complete more than 180 units at UCSB must complete at least 120 letter-graded units in residence.) There is no limit on the number of courses which may be taken P/NP by eligible students during a single quarter.
- They have not been restricted or prohibited from the use of the P/NP option due to an excessive number of NP grades earned. Students with more than eight units of NP grades in one quarter or with more than 20 units of NP grades in all terms of university enrollment combined may be so restricted. In the case of repeated courses in which the initial grade was NP, the original NP will not be included in this 20-unit total.

Students who take major or minor courses in excess of minimum major or minor requirements may elect the P/NP option for those courses. Such courses will not be accepted in satisfaction of requirements for the major or minor. Students who plan to apply to graduate or professional schools should use P/NP grading sparingly, as it provides less information for admissions committees to review. Pre-law students should note that the Law School Data Assembly Service (LSDAS) will calculate an NP grade as an F when considering applicants for admission into their programs.

### Incomplete Grade

The grade Incomplete (I) may be assigned when a student's work is of passing quality but is incomplete. I grades will be excluded in the computation of the student's grade-point average at the end of the quarter.

### Petitioning Process

An I grade may be placed on a student's record only if the completed Petition for an Incomplete Grade, signed by the instructor, is on file in the Office of the Registrar by the last day of the quarter. The student's BARC account is billed for the processing fee. In the absence of the petition or of a specific grade other than I, the Office of the Registrar will record a grade of F, NP, or U.

### **Completion Deadline**

The deadline to complete an I grade is the end of the term following the term in which the I grade was reported, whether or not the student is registered and whether or not the course is offered in that term. The student is entitled to have the grade of Incomplete replaced by a passing grade as determined by the instructor concerned, and to receive unit credit and appropriate grade points, upon satisfactory completion of the coursework by this deadline. Unless the work is completed and a grade is reported to the Office of the Registrar by the deadline, the I will be changed automatically to F, NP, or U, as appropriate. If the instructor is unavailable, the chair of the department in which the course was offered is authorized to supervise completion of the work and to make the appropriate grade change. The instructor and chair also have the authority to extend the deadline for completion in the event of unusual circumstances that would clearly impose an unfair hardship on the student if the original deadline were maintained.

At the time of graduation, an I grade on the student's record in a course necessary for the fulfillment of degree requirements will disqualify the student for graduation. An I grade on the student's record at the time of graduation in a course not necessary for the fulfillment of degree requirements may be removed only up to the end of the fifth week of the term following the date of graduation. If not removed, it will remain an I on the record permanently. For the purpose of determining academic eligibility, any I grades remaining on the record at the time of graduation will be counted as F grades in the computation of the required university grade-point average if the student has elected the letter-grade option.

### **Grade Changes to Incomplete**

A grade may be changed to an I only with the approval of the dean of undergraduate education and after successful completion of the petitioning process described above.

### **In-Progress Grade**

The grade In Progress (IP) may be assigned provisionally in each but the last term of special courses extending over more than one term. In the last term, the grade assigned by the instructor replaces the provisional IP grades for all portions of the course. If a student fails to enroll in or complete the final course of a sequence in the next quarter in which it is offered, the IP grades will be replaced by the grade of I. Further changes of that grade will be subject to the conditions covering incomplete grades. IP designations are not included in the computation of grade-point averages.

### **Withdrawal Grade**

The W grade will be assigned when a student withdraws from the university or receives permission to drop a course after the deadline for course withdrawal set by the executive committee of the college or school in which the student is enrolled. (This includes undergraduate enrollment in graduate-level courses.) The W grade will be assigned for each course affected. Courses in which a W has been entered on the student's record will be disregarded in determining a student's grade-point average and will not be considered as courses attempted in assessing the student's grade-point average for graduation.

---

# CHECKLIST OF DEGREE REQUIREMENTS

## Bachelor of Arts Degree

---

### Entry Level Writing Requirement

Pass exam \_\_\_\_\_ or Writing 1, 1E, or ILK \_\_\_\_\_ or appropriate transfer course \_\_\_\_\_. (Must be fulfilled within three terms of admission.)

### American History and Institutions Requirement

One course \_\_\_\_\_, or exam \_\_\_\_\_.

(This course may also apply to the General Education requirements, if appropriate.)

### General Education Requirements—General Subject Area Requirements

#### Area A: English Reading and Composition

\*Writing 2, 2E, or 2LK \_\_\_\_\_ and one of the following:

English 10, 10AC, 10EM, 10LC, or Writing 50, 50E, 50LK, 105 AA-ZZ, 107 AA-ZZ, 109AA-ZZ \_\_\_\_\_.

#### Area B: Foreign Language

To be fulfilled in one of the following ways:

- \_\_\_\_\_ 1. Completion of a college language course at level 3.
- \_\_\_\_\_ 2. Appropriate score on SAT Subject Test in a foreign language (for specific information see p. 9 of this booklet).
- \_\_\_\_\_ 3. Score of 3 or higher on College Board Advanced Placement Exam in a foreign language.
- \_\_\_\_\_ 4. Score of 5 or higher on higher level International Baccalaureate Exam in a foreign language.
- \_\_\_\_\_ 5. C or higher average in third year of high school foreign language.
- \_\_\_\_\_ 6. Placement above level 3 on UCSB exam.

(Note: If option 1 is taken, the student's unit requirement is increased to 184.)

#### Area C: Science, Mathematics, and Technology

Three courses required. \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_.

#### Area D: Social Sciences

Three courses required. \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_.

#### Area E: Culture and Thought

Three courses required. \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_.

#### Area F: Arts

Two courses required. \_\_\_\_\_ and \_\_\_\_\_.

#### Area G: Literature

Two courses required. \_\_\_\_\_ and \_\_\_\_\_.

Remember: A course listed in more than one of the General Subject Areas A through G can be applied to only one of these areas.

\*Please note: credit earned through AP or IB exams may mean you have fulfilled one or both parts of Area A and that you are not eligible to enroll in some of the listed courses. See pp. 22-23 for details.

---

## General Education — Special Subject Area Requirements

In the process of fulfilling General Subject Area requirements C through G, students must complete the following Special Subject Area requirements. Where appropriate, courses may apply simultaneously to General Subject and Special Subject Area requirements.

1. At least six courses that require the writing of one or more papers totaling at least 1,800 words.

\_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_,

\_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_,

2. At least one course that focuses on a world culture outside the European tradition. \_\_\_\_\_.

3. At least one course from Area C emphasizing quantitative relationships. \_\_\_\_\_.

4. At least one course that focuses on ethnicity. \_\_\_\_\_.

5. At least one course that focuses on European traditions. (Required for the B.A. only.) \_\_\_\_\_.

## Unit Requirements

180 total units required (184 if option 1 is chosen in GE Area B). Sixty units must be upper-division.

*Note: No more than six units of ES I- or equivalent courses will be accepted toward the units required for graduation. Credit is normally allowed only once for specific material.*

## Grade-Point Average Requirements

At least 2.0 (C) grade-point average in the following:

- all UC courses taken for a letter grade
- all UC courses applicable to the major taken for a letter grade
- all UC courses applicable to the upper-division major taken for a letter grade

*Please note: At least two-thirds of each student's units completed at UCSB must be letter-graded.*

## Academic Residence Requirements

### ***In the University of California:***

- Three regular terms of at least six units each (a UC summer session in which at least two units are completed is the equivalent of one-half term)

### ***In the College of Letters and Science at UCSB:***

- 35 of the final 45 units\*
- 27 upper-division units
- 20 upper-division units in the major

*\*Students who participate in University of California Education Abroad, UCDC, or UC Center in Sacramento programs as seniors should consult the General Catalog for details about a small exception.*

## Major Requirements

The requirements for your major are described on the official requirement sheet and in the *UCSB General Catalog*. Questions regarding your major requirements should be directed to the department advisor.
